

NASCAR simulator at the Williamson County Fair

Have racing in the blood? NASCAR fans will have an opportunity to actually experience sitting in and racing a real stock car during the Williamson County Fair. Dollar General is bringing the Dollar General NASCAR in-car racing simulator to the Fair Sunday Aug. 8 through Thursday Aug. 12 in the air conditioned arena.

The car offers race fans of all ages the opportunity to get behind the wheel of a regulation-size race car that performs similarly to an authentic NASCAR race car.

Two people can participate in the racing experience at one time. While in the simulator car, fans can race other cars on a virtual NASCAR track while steering, accelerating and braking under realistic track conditions.

The car also features virtual sound, realistic video, graphics and controls for added excitement.
